

EuroClone®

serving science through innovation

Distilled Water Sterile Tissue Culture Tested

Code ECM0970 Format 100ml

Features:

This product is suitable to dissolve cell culture media in powder following the media technical data sheet.
Colourless, clear solution

Product Specifications:

Endotoxin: $\leq 0,005$ EU/ml Sterility: tested

Applications:

Cell culture and molecular biology
Dilution purposes Reference solution Manufacture of media
Manufacture of reagents for cell culture

Storage and Shelf life:

The product must be stored at RT.
If properly stored shelf life is: 48 months.

FOR RESEARCH USE ONLY
